- Vision acuity
- Patient consults

Hepatitis B is a severe viral disease frequently seen in the Asian populations. One in 12 persons has hepatitis B. There are 2.2 million people affected in the US, mostly Asians. The disease usually has no symptoms. Please get screened to prevent cirrhosis (liver scarring) and possible liver cancer

**Organized by:** Asian Pacific Health Foundation, UCSD students, Skaggs student pharmacists, Physicians and Pharmacists in San Diego

**Sponsored by:** Hep B Foundation, National Task Force on Hepatitis B, Robert Gish, MD
